PKP CARGO Group financial and operational results

for 2024

Warsaw, April, 29 2025

#### Introduction

- The loss in 2024 is mainly the result of a decrease in revenue (19%) without and even more pronounced decrease in operating costs (8%), as a result of the restructuring measures taken last year and the amount of write-downs, which are mainly the aftermath of a mismatch between rolling stock and freight work.
- The decrease in sales revenue is the result of both a general reduction in the weight of goods on the market, including coal, which is still the dominant category among good transported by PKP CARGO and the highest percentage share in the freight market (40% in relation to 20%).
- The Company struggled with an imbalance in costs (especially fixed costs) in relations to the structure of operations, which led to their significant overspending in a situation of falling sales. The redundancy processes carried out in the Company and its subsidiaries have partially addressed this problem and should yield tangible results in the following periods. However, further operational and non-operational assets and operational support processes.
- The Company, being in a court-ordered reorganization process (sanctioning proceedings), is required to submit a comprehensive restructuring plan, covering not only corrective measures within the Company itself, but also the Company's and the Group's long-term development strategy. This plan will be filed with the court by 30 June 2025.

Despite negative results and significant Staff reductions, the Company is fully operational, fulfilling its contracts and acquiring new ones. It is solvent and pays its current liabilities on time.

| Long-term   | 2 784,2                   | 2 378,7                |
| Short-term  | 2 333,3                   | 3 314,7                |
| Total liabilities Included in the list of receivables PKP CARGO S.A and PKP CARGOTABOR* | <b>5 117,5</b> <i>0,0</i> | <b>5 693,4</b> 2 800,3 |

#### **Cash flow**

(PLN m)

| Cash flow   | 2023    | 2024    | Change |
|-------------|---------|---------|--------|
| Operational | 1 211,0 | 1 031,9 | -179,1 |
| Investment  | -987,1  | -420,7  | 566,4  |
| Financial   | -133,4  | -281,5  | -148,1 |

In this presentation, for ease of understanding, rounding have been applied which may result in immaterial deviations in the data presented. \*PKP CARGO S.A and PKP CARGOTABOR receivables included in the list of receivables of both companies, taking into account elimination of mutual receivables between the companies covered by the Consolidated Financial Statements. The amount in question does not include bank guarantees and sureties presented as contingent liabilities.

# Independent auditor's report on the financial statements of the Company and the Group

• On 28 April 2025, the Company received the Independent Auditor's Report on the annual separate and annual consolidated financial statements containing a disclaimer of option. At the same time, the auditor concluded that the Directors' Report had been prepared in accordance with the applicable regulations. Group sustainability reporting, presented as a separate part of the Group management report and presented in chapter 10 of this report, subject to separate attestation — a positive unmodified option was issued. Grant Thorton Polska P.S.A was appointed to audit the separate and consolidated financial statement of the Group for the years 2021-2025 by a resolution of the Ordinary General Meeting of Shareholders for the Parent Company dated 28 June 2021.

# Independent auditor's report on the financial statements of the Company and the Group

The Manager's position on the refusal of the audit firm to express an option

The administrator of the Company states that, in his opinion, the continuation of the Company's and the Group's operations is not at risk, due to the fact that restructuring proceedings have been opened. The Company is very advanced in its work, with the support of a reputable financial advisor, on the preparation of the Restructuring Plan and the deadline for its submission is not at risk. The key issue underlying at the auditor's position, i.e. the lack of a complete Restructuring Plan to authenticate and substantiate the going concern principle, has been disclosed in the Company's accounts in the form of an additional impairment charge. The Company and the Group are operating on an ongoing basis and will therefore have sufficient funds to cover current liabilities maturing over the next 12 months. It will therefore be possible for it to maintain liquidity without the need for additional external sources of funding. Thus, in the opinion of the Company's Resolution Administrator, all estimates and forecasts adopted remain reasonable in the current economic environment for the Company and the Capital Group.

Opinion of the Supervisory Board on the refusal of the audit firm to express and opinion

The refusal to express an opinion should be regarded as significant, but neutral in relations to the continued viability of the Company and the Group, is due to the uncertainty regarding the approval of the restructuring plan and the payment of current liabilities by the Company and the Group, which, in the opinion of the Supervisory Board of the Company at the data of this opinion, does not constitute a significant risk.

### Sanation

- On 27 June 2024, the Board decided to apply to the court to open sanation proceedings
- The application was made in order to improve the financial and liquidity position of the Company. The Board took this decision with the best interests of the Company and its shareholders in mind. The court-supervised restructuring process allows the Company to continue its operations to achieve the best possible outcome for creditors, employees and shareholders. It also allows the Company to come to an agreement with its creditors without the pressure of suddenly having multi-million dollar liabilities due. It allows the Company to maintain its liquidity and operational capacity.
- On 25 July 2024, the Company received and Order to pen sanation proceedings. The debtor was allowed to exercise management over the entire company to an extent not exceeding the scope of ordinary management and an administrator was appointed, Ms. Izabela Skonieczna-Powałka (license number 772)
- On 2 September 2024, the subsidiary company PKP CARGOTABOR Sp. z o.o. received a decision on the opening of the sanation proceedings of PKP CARGOTABOR Sp. z o.o., the debtor's own management was left in place, and the administrator Geronim Lewandowski Restukturyzacje Sp. z o.o. was appointed.
- On 28 February 2025, the Administrator of PKP CARGO S.A in restructuring submitted t the Court a list of the Company's creditors.
- Within the framework of the actions taken, the Company has implemented or is in the process of implementing: reduction of employment, termination of some of the lease agreements redundant for its operations, sale of some of its assets, reduction of investment outplays and their adjustment to transport needs, reorganization of the Company's organizational structure. All details of these actions and the strategy of changes of PKP CARGO S.A in the Restructuring Plan, which will be published in June 2025

# Restructuring plan and further development – assumptions

- Identify the exact role of PKP CARGO and the Group in the rail freight market, including mutual synergies and process bottlenecks.
- Optimizing cost optimization and improving operational efficiency (including minimizing financial risks) by implementing a new sales strategy and reorganizing and automating operational processes.
- Implementing a sales and operational excellence strategy to align customer terms and conditions with current market needs and competitive activities, enabling a flexible response to the changing business environment, improving customer satisfaction and maintain cost discipline.
- Concentrating resources and aligning processes for growth in promising market segments such as specialized haulage and intermodal, while reducing activity and divestment in deviling or low-margin areas.
- Introduce mechanisms to invest in rolling stock and technology and implement a remuneration/ bonus system based on contribution to company performance and value growth of the Company and Group.
